Motivated software developer with a diploma in Computer Studies from Langara College. Proficient in Java, PHP, C++, Node.js, React.js, Express.js and databases like MySQL and MongoDB. Skilled in developing user-friendly applications and websites. Seeking an entry-level position to contribute technical skills and drive organizational success.

Projects

❖ Task Manager Application

- **Technology Stack:** HTML, CSS, JavaScript, JSON, Node.js, React.js, MongoDB, Heroku
- Developed a user-friendly and intuitive Task manager application using HTML, CSS, and JavaScript.
- Implemented advanced features like task prioritization, due dates, and reminders.
- Integrated authentication and user management functionalities.
- Utilized Node.js and React.js for seamless backend and frontend functionality.
- Employed MongoDB for efficient data storage and retrieval.
- Successfully deployed the application on Heroku for easy accessibility.

❖ eCommerce Platform for Smartphones

- **Technology Stack:** HTML, CSS, PHP, MySQL, XAMPP
- Created a dynamic and visually appealing e-commerce website for Apple smartphones.
- Designed an interactive user interface to enhance the shopping experience.
- Implemented secure payment gateways and shopping cart functionality.
- Utilized PHP for server-side scripting and MySQL for efficient data storage.
- Integrated search and filtering options for easy product navigation.
- Conducted thorough testing and debugging to ensure smooth functionality.
- Used XAMPP for local development and testing, ensuring seamless deployment.

Education

Langara College | Vancouver, Canada

April 2023 | Diploma in Computer Studies

Key skills and characteristics

- **Languages:** Java, PHP, C++, JavaScript
- **Web Technologies:** Node.js, React.js, Express.js, HTML, CSS
- **Databases:** MySQL, MongoDB
- **Networking concepts:** TCP/IP, DHCP, DNS
- **Others:** Distributed Database Management, Data Structures, Algorithms, OS, OOD, Cloud Computing, Computer Networks, Data Warehousing, Problem-solving, Teamwork, Communication
